

I work for a small independant station here in the Hudson Valley, NY and am astounded at the number of radio stations owned by on corporation. I feel that if the rules on monoplies are relaxed ALL the stations will be gobbled up and put under on banner, with no clear independant voice left for the public.

Conside what happened when the phone company was deregulated. Do this and the same disasterous lack of service will take place. Say "NO" to 02-277!!!
